

# Learning About Coronavirus

**Coronavirus is a new type of virus or illness.**

**A virus or illness can make people feel sick.**

**If someone has the coronavirus they may have a cough or a fever.**

**Other viruses like the cold or flu can make people cough and have a fever.**

**When most people are sick they need to stay home and rest to feel better.**

**Some people need to go to a doctor to feel better.**

**They also need to stay home so others don't get sick. Everybody is staying home now.**

**It's really hard to change our routines, but sometimes we need to so everyone can be safe, happy, and healthy.**

**For now, we want to keep everyone safe by staying at home until the virus is gone.**

**At home I can do fun things.**

**I can go outside for a short walk, but I need to stay away from other people when walking.**

**I can watch movies, relax, work on the computer, play on the iPad, watch YouTube, play games, read books, dance, sing and have fun at home.**

**I can also help my staff with chores around the house.**

**I can help with laundry,  
take out the trash,  
help with cooking, wipe the table,  
clean my room and put my things  
away.**

**I can be kind to others and ask if they  
need help.**

**I can also learn new things on the  
computer and with the help of staff.**

**I won't be able to go to my  
favorite places for a while,  
but I will be able to go  
again when the virus is gone.**

**I will be able to go back to my job,  
friends and my work schedule too  
when the virus is gone!**

**My family, friends and staff  
will be proud of me for following  
directions, helping at home,  
and for keeping everyone safe.**
